(‡) Technician Assistance includes consultation, experimental design, software installation, troubleshooting equipment outside core, etc

Industry Users: Please inquire

Please Note

- First-time users seeking training must complete the full training process. Only trained users who have submitted their onboarding form and training record for an equipment will be allowed to use the equipment independently.
- Users will be billed for actual time used plus 50% of unused reservation time. This policy prevents one user from overbooking the microscope and preventing the access of others.
- Please keep regular usage to 4 hours for SP5 and 3 hours for BX61 per day. Users who need a reservation for longer must make arrangements with Jingsong Wang at jinwang@bcchr.ubc.ca.
